

No Bust 21

A 6 or 8 deck shoe is used - no jokers. Players must make a basic wager of at least the house minimum to play.

No bust 21 is played like regular blackjack except for the following differences:

1. Players and dealers do not bust. Winning hands are those that come closest to 21, whether over or under.
2. There are three kinds of ties. Dealer and player point counts below 21; dealer and player point counts on or above 21; and dealer and player point counts on opposite sides of 21 but equidistant from 21. The dealer wins ties above 21, ties exactly on 21 are either player wins or pushes depending on pay scale; other ties are pushes, the bet is neither taken nor paid.
3. The dealer must hit all 17s, whether hard or soft, and stand on all 18s, whether hard or soft. The dealer must stand on all soft 22s, 23s and 24s (14) and hit soft 25s and above.
4. Closest to 21 wins whether the hands are under 21 or over 21. If the hands are the same number of points away from 21 it is a "push" - the bet is neither taken nor paid; unless the dealers hand and the players hand are the same and are above or greater than 21 in which case the dealer wins.

Examples:

	<u>Dealer</u>	<u>Player</u>	<u>Result</u>
Totals	19	23	push
	19	22	Player Wins
	19	24	Dealer Wins
	19	19	push
	27	27	Dealer Wins

Dealer wins ties only if dealer and player have the same point count above 21.

The following three pay scales will be offered. The pay scale used will be indicated in the gaming establishments internal controls and dealing manual.

	<u>21 Ties</u>	<u>BJ pays</u>
Scale 1	Player wins 21 ties	1 to 1
Scale 2	21 is a push	3 to 2
Scale 3 *	21 is a push	1 to 1

*In Scale 2, dealers blackjack is an automatic winner, in Scale 3, dealers blackjack is not an automatic winner and may be tied by player.

5. Players may split pairs, double down on any two cards (receiving only one card), and double down after splitting.

21 Wager

In addition to the basic bet, players may make an additional wager that their hand will total exactly 21.

The wager may be any amount allowed within the card room limits.

If a player making a 21 wager splits pairs, player may choose to make an equal 21 wager on second hand.

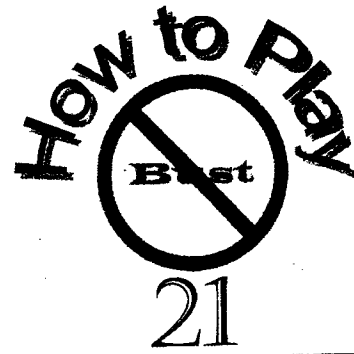

Payoffs for the 21 wager:

21 on two cards	3 to 1	21 on seven cards	40 to 1
21 on three cards	4 to 1	21 on eight cards	200 to 1
21 on four cards	5 to 1	21 on nine cards	500 to 1
21 on five cards	8 to 1	21 on ten or more cards	1000 to 1
21 on six cards	15 to 1		

We allow the card room to put an aggregate limit of \$10,000 for the 21 Wager payout on any one deal.

\$1 to \$5 limit Payscale for Bonus 21 Wager

<u># of cards to make 21</u>	<u>Payoff</u>	<u># of cards to make 21</u>	<u>Payoff</u>
21 on two cards	4 to 1	21 on seven cards	50 to 1
21 on three cards	4 to 1	21 on eight cards	200 to 1
21 on four cards	5 to 1	21 on nine cards	500 to 1
21 on five cards	10 to 1	21 on ten or more cards	1000 to 1
21 on six cards	15 to 1		

Played like regular Blackjack
except you never bust!

Players 21 automatically wins!

(Blackjack pays 1:1)
